

## SMARTS Online Summer Summit

Thursday and Friday, August 9 & 10

8:30am-3:00pm

The McSwiney Center for Professional Learning  
at the  
EDCO Collaborative 36 Middlesex Turnpike, Bedford, MA

### SMARTS workshops

explore the important role that executive function plays in successful learning as well as systematic approaches to apply executive function strategies to common academic tasks. Using the lesson plans, strategy worksheets, handouts, and other materials from the SMARTS Executive Function curriculum, attendees will learn the research and theory behind successful EF strategy instruction as well as how to teach executive function strategies across grades and content areas. Our workshops also focus on the importance of metacognition and methods for integrating opportunities for self-reflection into instruction.

***Our August training, hosted by Dr. Lynn Meltzer, will include a “deep dive” into the theoretical framework of the SMARTS program. Attendees will gain a deeper understanding of the key concepts of executive function and metacognition. Attendees will participate in modeled lessons and learn how to adapt SMARTS strategies for students with diverse academic profiles.***

Dr. Lynn Meltzer, President and Director of the Institutes for Learning and Development and Summit Keynote Speaker

***The Summit registration fee of \$395 includes selected PowerPoint® presentations, lesson plans, and handouts, as well as lunch and free parking.***
