

Announcing our next training event!

SMARTS Executive Function Workshop

Friday, October 19, 2018

9:00am-3:00pm

2 Militia Drive (Adult Learning Center)

Lexington, MA

\$225 general registration \$185 SMARTS subscribers

(includes free, one day access to the entire curriculum, materials, lunch, and free parking)

Learn new strategies to teach planning, time management, breaking down tests/projects, studying, and self-checking.

Determine the role that cognitive flexibility plays in reading, writing, and math. Learn new methods for teaching students how to think flexibly when approaching their school work, their tests, and their lives!

This presentation will highlight current theory and research in the field of executive function. Using material from ResearchILD and the SMARTS Executive Function Curriculum, participants will learn practical approaches to EF strategy instruction for students of all ages and ability levels.

“The workshop was great. I left with a wealth of information and I am eager to prioritize next steps with my students.” High School Science Teacher

“The training gave us all concrete tools and strategies to use at our school. We are more prepared to help our students who struggle with executive function challenges, especially organization.” Middle School Special Education Administrator

Frequently Asked Questions

Q: What will I learn when I attend the training?

A. You will develop a deeper understanding of the key concepts of executive function. You will participate in modeled lessons and learn how to teach and adapt SMARTS EF strategies to your classroom teaching. You will also have the opportunity to collaborate with your peers, engage with SMARTS staff, and develop customized approaches to promoting strategic and self-aware learning for students with diverse ability profiles.

Q: How familiar must I be with the SMARTS Online curriculum in order to attend?

A. This workshop requires neither prior experience with the curriculum nor previous teaching of executive function strategies. You will have access to the entire program at the training and the option to purchase either the complete curriculum or the SMARTS strategy sets, afterwards. There is no obligation to purchase either one.

Q: Who is the featured presenter?

A. Michael Greschler, M.Ed., is the Director of the SMARTS Program and as an integral member of ResearchILD team, works closely with classroom teachers and school systems across the country on implementing the SMARTS Executive Function Curriculum. In addition, he works with individual middle and high school students on executive function strategies across subject areas as an Educational Specialist at ILD. He will be joined by members of the ResearchILD SMARTS staff.

For more information on ResearchILD, the SMARTS Program, our conferences, workshops and in-school training opportunities, please contact Jamie Cutler, Director of Marketing at jcutler@researchchild.org, or 781-541-3686.
